
Jesus is alive

Running to the grave at the break of day
On the hill an empty cross, the tombstone rolled away
Death it could not hold him, reaching for the sky
He overcame the darkest night, never more, never more to die

Pardon freely given my guilt is seen no more
As far as east is from the west on a distant shore
There's a man in heaven with scars that tell the tale
Now he lives to pray for me, hell shall not, shall not prevail

Jesus is alive, now he's lifted high
Jesus Christ once crucified, seated at the Father's side
Jesus is alive, now he's lifted high
High above all earthly things, I will live to worship him

If the Lord is risen indeed, he's the one who sets me free
Free from failure and from fear, giving life to all who will draw near

Jesus is alive, now he's lifted high
Jesus Christ once crucified, seated at the Father's side
Jesus is alive, now he's lifted high,
High above all earthly things, I will live to worship him
